PERSONAL PARTICULAR

- Nationality – Myanmar
- Date of Birth – 07-06-1998
- Gender – Male
- Expected Salary – SGD 4500 - 7000 (Nego)
- Notice Period – Immediate
- Work Status – S Pass / EP (on-site Singapore)
- Motivation – Make it work, make it fast, make it right.

EDUCATION

- University of Computer Studies, Meiktila
- B.C.Sc (Computer Science), 2014 – 2019

LEADERSHIP

- Taxila Institute / Meiktila (2018)

TECHNICAL SKILLS

Full-Stack Development

- **Backend Development:** PHP, Laravel, Livewire, Inertia, Node.js, Microservices, RESTful APIs, GraphQL
- **Frontend Development:** HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript, TypeScript
- **Frameworks & Libraries:** Vue.js, React.js, Next.js, jQuery
- **Workflow & Development Tools:** SDLC, Agile, CI/CD (GitHub Actions, Bitbucket), Postman, Git, SourceTree

Database

- MySQL, MSSQL, PostgreSQL, MongoDB, SQLite (schema design and normalization)

Aung Zin Latt

Senior Software Engineer (Full-Stack) · Seeking on-site in Singapore (S Pass / EP)

Senior full-stack engineer with 7+ years of hands-on development and 6+ years in production environments. Led delivery of mission-critical systems at Metropolis Security Systems (Singapore)—including rostering, visitor management, and officer-facing PWA—driving automation, security, and scalability. Hands-on experience with microservices (Docker, Kubernetes) for scalable, independently deployable services. Strong ownership of the full software lifecycle: architecture, implementation, testing, and deployment on AWS. Passionate about clean design, performance, and mentoring; ready to contribute at a senior level and grow with a forward-looking team.

WORKING EXPERIENCE

Senior Software Engineer (Full-Stack)

2023 – 2025

Metropolis Security Systems Pte., Ltd | Singapore

Owned end-to-end delivery of core product suite (eRoster, VMS, eMetro PWA) used by security operations across Singapore. Designed and implemented microservices with Docker and Kubernetes for key modules, improving deployability and scalability. Architected and implemented automated rostering and payroll flows, reducing manual effort and errors. Drove adoption of Laravel, Vue/Inertia, and AWS (EC2, RDS, S3, CI/CD), establishing patterns for security, testing, and maintainability. Collaborated with stakeholders to refine requirements and deliver on time; supported and mentored developers on best practices and deployment workflows.

PROJECT SUMMARY

1 Rostering Management System (eRoster)

Metropolis Security Systems Pte Ltd

2023 – 2025

Project Summary

Enterprise system for planning and managing security officer deployment. Centralizes scheduling, availability, attendance, and overtime; streamlines operations and reporting for management.

Functionality

- Automated shift scheduling and officer availability tracking
- Integration with attendance and overtime modules; comprehensive reporting
- Notifications and audit trails for compliance

Language and Environment

- Front-end: Vue.js, HTML5, CSS3, JavaScript, jQuery, Ajax, Bootstrap
- Back-end: PHP (Laravel), Node.js; DB: MySQL, MSSQL, MongoDB; Git/GitHub; AWS

2 Visitor Management System (VMS)

Metropolis Security Systems Pte Ltd

2023 – 2025

Project Summary

End-to-end visitor management: check-in, pre-registration, tracking, badge printing, host notifications, and access-control integration. Delivers reporting and analytics for security and compliance.

Language and Environment

- HTML5, CSS3, JavaScript, jQuery, Ajax, React.js, Bootstrap; PHP (Laravel); MySQL; Git/GitHub; AWS

3 Metro-Officer Application (PWA)

Metropolis Security Systems Pte Ltd

2023 – 2025

Project Summary

Progressive Web App for officers: schedules, availability, announcements, feedback, and employment details. Responsive and performant on desktop and mobile.

Server & DevOps

- **Cloud/Infra:** AWS (EC2, S3, RDS, Route 53, SES, ELB, Elastic Beanstalk, CodePipeline, CloudWatch, Backup)
- **Containerization:** Docker, Kubernetes (hands-on deployment)
- **Hosting/Web Server:** DigitalOcean, Apache, Nginx

INTERPERSONAL SKILLS

- Strong self-driven and self-motivated mindset
- Good attitude; positive and professional toward work and learning
- Developing and directing software system validation and testing methods
- Managing SDLC and Agile methodology; monitoring system performance
- Strong analytical skills; eager to learn and resolve complex issues
- Adaptable with team members; collaborative with excellent communication skills
- Able to work independently with minimal supervision and meet tight deadlines
- Strong management; takes responsibility
- Experience with CI/CD pipelines, version control (Git), and code reviews
- Familiar with secure coding practices and performance optimization techniques
- Capable of mentoring junior developers and sharing knowledge within the team

Language and Environment

- HTML5, CSS3, JavaScript, Tailwind CSS; PHP (Laravel), Inertia, Vue.js; MSSQL; Git/Bitbucket; AWS

4 DNI (Daily Need Items – E-commerce)

ITVISIONHUB Co., Ltd | Yangon, Myanmar

2019 – 2023

Project Summary

Full-featured e-commerce platform: catalog, cart, checkout, favorites, delivery and invoice systems. Built for scalability and usability on web and mobile.

Language and Environment

- HTML5, CSS3, JavaScript, jQuery, Ajax, Bootstrap; PHP (Laravel), Livewire; MySQL; Git/GitHub; Digital Ocean, AWS

5 ITVISIONHUB Online Training Course

ITVISIONHUB Co., Ltd | Yangon, Myanmar

2019 – 2023

Project Summary

Learning platform for software development: course creation (HTML, CSS, JS, PHP, Laravel, Vue, React, Node, REST, MySQL). Covers secure coding (SQL injection, CSRF, XSS, validation, session security) and modern tooling.

Language and Environment

- HTML5, CSS3, JavaScript, jQuery, Ajax, Bootstrap, React, Vue, Livewire; PHP (Laravel); MySQL, SQLite; Sketch, Photoshop, Illustrator

6 Invoice System

ITVISIONHUB Co., Ltd | Yangon, Myanmar

2019 – 2023

Project Summary

Invoice lifecycle management: create, send, customize (branding, logo), track payments, and generate reports. Laravel Livewire and MySQL; mobile-friendly for on-the-go use.

Internship Program

Studio AMK Co, Ltd | Yangon, Myanmar

May 2018 – Nov 2018

- 6-month internship; delivered Cool Fancy Shop (e-commerce) using PHP Laravel, Bootstrap, HTML5, CSS3, JavaScript, Git, MySQL
