Total Experience: 7+ years (2018 - Present) | Open to new opportunities

Profile Summary

Senior Full-Stack Engineer with 7+ years of hands-on development and enterprise-scale system ownership across Singapore security operations, workflow automation, and customer-facing applications. Full-stack production expertise across PHP, Laravel, JavaScript, React.js, Vue.js, Next.js, Node.js and TypeScript at both Metropolis and ITVISIONHUB. Delivers business-critical systems with AWS, DigitalOcean, Docker, and CI/CD, with strong focus on scalable architecture, release reliability, and long-term maintainability. At Metropolis Security Systems in Singapore, reduced operational processing overhead by 65%, cut production downtime by 40%, and supported internal platforms processing 1000+ daily attendance records across 75+ active Singapore client sites (100+ total deployments). Proven track record in Singapore enterprise environments, leading full software lifecycles from solution design and API development through CI/CD, cloud deployment, and production optimization. Available immediately for Singapore on-site roles following hands-on enterprise delivery with Metropolis Security Systems.

Technical Skills

- React.js | Vue.js | Next.js | JavaScript (ES6+) | TypeScript | Inertia | Livewire | Tailwind CSS | Bootstrap | Responsive UI | Component Architecture | React Native (Exposure)
- Laravel | PHP | Node.js | REST APIs | GraphQL | Microservices | Eloquent ORM | RBAC | Modular Architecture
- MySQL | MSSQL | PostgreSQL | MongoDB | Redis | RabbitMQ | Schema Design | Query Optimization
- AWS (EC2, RDS, S3, Route 53, SES, ELB, Elastic Beanstalk, CodePipeline, CloudWatch) | DigitalOcean | Docker | Kubernetes | GitHub Actions | Bitbucket Pipelines | CI/CD
- Postman | Git | SourceTree | Agile SDLC | Nginx | Apache | Legacy jQuery/Ajax Maintenance

EXPERIENCE

Senior Full-Stack Engineer

Metropolis Security Systems Pte. Ltd

09/2023 - 08/2025 Singapore | On-site

- Led end-to-end delivery of 3 production platforms (eRoster, VMS, Metro-Officer PWA) on Laravel and Node.js backends, integrating iREP for officer attendance clock-in/out, reducing manual roster coordination by 55% and operational processing overhead by 65%.
- Architected PDPA-aligned compliance workflows with audit trails and access-control integrations, improving audit readiness by 35%.
- Delivered facility booking management with third-party door lock integration and digital handover and takeover forms for KTV, dining, and shared facility rooms; built separate LPR (license plate recognition) workflows for car and motorcycle entry tracking.
- Scaled production environments on AWS and DigitalOcean processing 50,000+ monthly operational records, automating 85% of releases via GitHub Actions and Bitbucket CI/CD.
- Partnered with project manager, operations stakeholders, and engineering colleagues to translate business requirements into production releases and ongoing platform support.

Software Engineer (Full-Stack)

ITVISIONHUB Co., Ltd

📅 09/2020 - 08/2023 📍 Yangon, Myanmar | On-site

- Built end-to-end **DNI E-commerce** (catalog, cart, checkout, warehouse, delivery, invoicing) with **Laravel**, **Livewire** (PHP) and **JavaScript/TypeScript** UI workflows on **MySQL**, **AWS**, and **DigitalOcean**, supporting full order lifecycle from browse to fulfillment.
- Launched **Online Training Platform** and **Invoice System** modules with reusable content management, enrollment workflows, and automated billing document generation on **Laravel** and **Livewire**.
- Improved catalog and checkout performance through **MySQL query optimization**, streamlined order workflows, and automated billing processes.

Junior Full-Stack Developer

ITVISIONHUB Co., Ltd

📅 01/2019 - 08/2020 📍 Yangon, Myanmar | On-site

- Promoted to full-time after internship and shipped production features across DNI e-commerce and internal business systems on **Laravel**, **MySQL**, and **Bootstrap**.
- Shipped catalog, checkout, and order management features across iterative releases on **Laravel** and **MySQL**, supporting DNI e-commerce production operations.

Software Engineering Intern

ITVISIONHUB Co., Ltd

📅 05/2018 - 11/2018 📍 Yangon, Myanmar | On-site

- Completed **6-month internship** during final-year university, delivering an **e-commerce application** with **Laravel**, **MySQL**, and **Bootstrap** supporting **100+ SKUs**.
- Delivered hands-on feature development and bug fixes on **PHP**, **Laravel**, **JavaScript**, **MySQL**, and **GitHub**-based team workflows, earning a full-time offer after the internship.
- Implemented **React Native** mobile UI components and navigation flows, applying cross-platform development patterns alongside the core **Laravel** stack.

KEY PROJECTS

Rostering Management System (eRoster)

- Real-time operations dashboard for site-based day and night shift rostering across condos and commercial sites, planning officers by rank (SS, SO) with daily attendance clocking, patrolling, office management, and leave workflows.
- Automated scheduling, overtime approval, and leave management with compliance reporting and audit-ready daily, weekly, monthly, and yearly manpower summary reports.
- Built with **Laravel** | **Node.js** | **Vue.js (TypeScript)** | **REST APIs** | **MySQL** | **MSSQL** | **MongoDB**.

Visitor Management System (VMS)

- Pre-registration, check-in, host notification, badge printing, access-control, and facility booking workflows for multi-site visitor and shared-space operations.
- Integrated **third-party door lock systems** with digital **handover and takeover forms** for KTV, dining, and facility room bookings; implemented separate **LPR (license plate recognition)** for automated car and motorcycle entry tracking.
- Structured visitor logging with compliance-ready check-in/out tracking and host notification automation.
- Built with **React.js (TypeScript)** | **Laravel** | **REST APIs** | **MySQL** | **AWS** | **DigitalOcean**.

Metro-Officer Application (PWA)

- Officer-facing PWA for schedules, **leave requests**, announcements, feedback, and employment details on desktop and mobile.
- Offline schedule caching, push-style announcements, and role-based access for field staff.

- Built with **Vue.js** | **Inertia** | **Laravel** | **MSSQL** | **Bitbucket CI/CD** | **AWS** | **DigitalOcean**.

DNI E-commerce Platform (Daily Need Items)

- Catalog, cart, checkout, warehouse management, delivery tracking, invoicing, and customer favorites.
- Order lifecycle, inventory, and warehouse stock workflows with automated billing and fulfillment notifications.
- Built in a **microservices** architecture with **Laravel** | **Node.js** | **React.js** | **TypeScript** | **GraphQL** | **Docker** | **MySQL** | **MongoDB** | **PostgreSQL** | **AWS** | **DigitalOcean**.

Online Training Platform

- Course catalog, module delivery, enrollment workflows, and student progress tracking.
- Reusable content management for structured software engineering training programs.
- Built with **Laravel** | **React.js** | **Vue.js** | **TypeScript**.

Invoice System

- Invoice issuance, branding customization, payment tracking, and reporting for daily business operations.
- Automated billing document generation and payment status workflows.
- Built with **Laravel** | **Livewire** | **MySQL**.

EDUCATION

Bachelor of Computer Science (B.C.Sc)
[University of Computer Studies, Meiktila](#)
📅 2014 – 2019

- Major in **Computer Science**
- Student Leadership, Taxila Institute, Meiktila (2018)

LANGUAGES

English
Proficient 

Myanmar (Burmese)
Native
